

TUESDAY JANUARY 15, 2019

Treating Diabetes to Reduce Vascular Risk

NISHA D'MELLO, MD, FRCPC

Cardiologist (Cardiac Imaging)

Scarborough & Rouge Hospital and Lakeridge Health

LEARNING OBJECTIVES

At the end of the session, the participant will be able to:

- Optimize treatment by treating to target
- Utilize a vascular protection check list to help manage patients with established cardiovascular disease
- Understand the importance of secondary prevention in patients with vascular disease
- Incorporate therapies related to diabetic care that are associated with improved cardiac outcomes
- Utilize new agents as secondary preventative measures independent of diabetic control
